

FITNESS TO FLY ASSESSMENT

We can also provide assistance to the aviation industry not only by assessing all CASA medical certificate holders but also cabin crew members or passengers regarding fitness to fly, during business hours directly through our airport clinic or after hours through our unique after hours response service.

We can provide necessary treatment to get you flying again as soon as possible.

DAMP & MEDICAL REVIEW OFFICER (MRO) SERVICES

Accredited by the Australasian Medical Review Officers Association AMROA an organisation approved by CASA under CASR Part 99 we can assist with your DAMP including interpretation of AOD testing, comprehensive assessment & restoration to safety sensitive aviation activity (SSAA).

WORKAIR AVIATION HEALTH SERVICES

WHO ARE WE?

A family owned and operated business providing medical services to the aviation industry in Adelaide's west. Dr Grantley Tschirn, Occupational Physician, is the principal (DAME) approved by CASA to perform Class 1,2 & 3 medicals and is accredited as a medical review officer for the purposes of CASA Part 99 regarding alcohol and other drug (AOD) use in safety sensitive aviation activities SSAA's.

AVIATION (DAME) MEDICALS - WHY USE WORKAIR?

With the convenience of easy parking, rapid electronic lodgement and "all under the one roof routine assessment" whether you require a Class 1,2 or 3 medical certificate we can make it almost painless! We even do point of care testing pathology for Class 1 & 3 certificates so no more running to the laboratory*.

**except initial medicals*

WHAT TO EXPECT

Personal details, taking of a medical history, targeted examination which may include a lung function test, hearing test, ECG at rest and blood testing for glucose and cholesterol. If you need to fast we'll even feed you after the blood test! The Occupational Health nurse will see you first and do several of these tests.. You will then consult with our DAME to finalise the process.

WHEN TO BOOK

It is advised that you make contact with WorkAir at least two (2) weeks prior to the expiry date on your certificate. We understand that these things do get left until the last minute and so we will get you in as soon as possible even on a Saturday morning if job loss is imminent otherwise!

WHAT TO BRING

When attending your appointment you must bring;

- Photo ID
- ARN
- Current medical certificate unless 1st medical)
- For ATC's please bring any AirServices Australia paperwork as well

HOW TO ARRANGE

Please contact WorkAir on (08) 8355 9400 or email reception@workair.com.au to make an appointment or to discuss any queries you may have.

We look forward in being able to do our part, in making your flight a safe and enjoyable one.

Aviation Medical Services

All Class 1, 2 & 3 Medical Assessments
Arranging specialist tests where required
Providing advice and assistance on DAME issues
Providing consult services for clearance and return to flying if TMUF beyond maximum designated period
Pick up & Delivery for transiting Pilots
MRO & DAMP services CASR Part 99

OUR FEES

Competitively priced our fees are based on the complexity of the medical required understanding that flying, whether for reward or pleasure can be an expensive undertaking.

WHAT ELSE IS INCLUDED

Our job doesn't end with the medical we will also provide;

- any reasonable assistance with follow-up after the medical including arranging any additional tests and assisting in providing further information to CASA.
- If you are coming through Adelaide Airport we can provide a pick up/drop off service to our clinic just let us know when you book in

We bulk bill under Medicare for those requiring CASA fit to fly/fit to control assessments
